Website Templates for Musicians

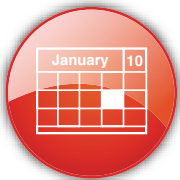

Whether you are the artist, the performer, a sideman or all of the above, the web is an indispensable tool, crucial to your success. Musicians, you need a website to help communicate with your fans and get your message out to the world. Dynamod Web Portals offer musician website templates that include features built specifically for musicians. The Itinerary Module, the Mailing List Module the Background Music Module and the Listen Section Module are just a few examples of what's included with your Dynamod Portal.

Upload MP3's in Seconds

NO WEB KNOWLEDGE NECESSARY!

Your Dynamod Portal is accompanied by an Administration System easier to use than Hotmail! Uploading Pictures, MP3's, Videos, PDF's and text has NEVER been easier. Simply select the file you wish to upload and click Submit. It's that easy. If you are using the musician website templates then most likely you'll have your Listen Section Module activated. Upload MP3s, images of the CD or performance (optional) and even a link to where ever you choose to sell your CD from!

Itinerary Module

The Itinerary Module is ideal for the musician website template user. Enter the dates of your gigs, the venues and any special directions, and your Dynamod Portal will display and order them correctly by upcoming and previous gigs. You can even enter links to the venue as well as pricing/special instructions.

Many Themes Available

Using your Administration System, you'll have numerous ways to customize the look and feel of your Portal at any time. Not only can you select from thousands of different color schemes, but you can also choose from many flash website templates we have available. New themes are added regularly.

Unlimited Email Accounts

Now you can instantly project a professional image by using your domain name to brand your company or personal e-mail. You'll reinforce your company name every time you or one of your employees sends an e-mail message. You get your own private yourdomain.com mail server so every email you send is personalized with your domain name brand.

Mailing List Module

Using your Dynamod Web Portal, keeping your visitors up to date has never been easier. Send Plain Text or HTML emails to anyone and everyone on your mailing list straight from your Portal Admin.

Website Hosting Services Included

Dynamod Web Portals include premium website hosting solutions utilizing the best hardware and Internet connections imaginable and are accompanied by our 99.8 percent uptime guarantee.
