### Website Templates for Teachers

For teachers, the web is an indispensable tool that can be used to take the class outside of the classroom. With a Dynamod Flash Website Template, teachers can post class notes for their students, reminders about homework, or announcements to keep parents up to date on their childrens' education. They can post pictures and videos of the latest field trip or school play. Teachers can even have students turn in their homework using the Project Management Module. No, you don't have to be a computer teacher to know how to use a Dynamod Web Portal.

#### Mailing List Module

Using your Dynamod Web Portal, keeping your visitors up to date has never been easier. Send Plain Text or HTML emails to anyone and everyone on your mailing list straight from your Portal Admin.

#### Many Themes Available

Using your Administration System, you'll have numerous ways to customize the look and feel of your Portal at any time. Not only can you select from thousands of different color schemes, but you can also choose from many flash website templates we have available. New themes are added regularly.

#### Project Management Module Included

Now you can share files with students and parents without having to show the whole world. Using your Dynamod Portal Administration, create password enabled users, set their permissions and upload files for them to see! We also give you a Drop Box Module which allows your password enabled users to upload files for you. This is just one of many free tools and services exclusive to owners of our Dynamod Flash Website Templates.

## Unlimited Email Accounts

Now you can instantly project a professional image by using your domain name to brand your company or personal e-mail. You'll reinforce your company name every time you or one of your employees sends an e-mail message. You get your own private yourdomain.com mail server so every email you send is personalized with your domain name brand.

## Website Hosting Services Included

Dynamod Web Portals include premium website hosting solutions utilizing the best hardware and Internet connections imaginable and are accompanied by our 99.8 percent uptime guarantee.
